# Update since IETF-71

MBONED WG has taken the new 3171bis on as a working group document

[draft-mboned-ietf-3171bis-03.txt](#)

Changes since previous versions

- ❖ Received input from WG
- ❖ Clarity of language
- ❖ New AD-HOC Block (previously eGLOP space)
- ❖ Registration Procedures

# Next Steps

- ❖ Final edits (version 04)
- ❖ WG Last Call
- ❖ Begin work on policy document within the MBONED Working Group

# Other related work items

- ❖ Review of IPv4 and IPv6 multicast registries to convert to XML as source
  - ❖ Will be seeking input from the working group on any formatting issues
  - ❖ May need to contact registrants of multicast addresses to verify contact information
- ❖ IPv4 Application form to be UPDATED soon
- ❖ IPv6 Application form to be ADDED soon

# Thank you!
