Update to the IETF Anti-Harassment Procedures for the Replacement of the IAOC with the IETF Administration LLC
draft-ietf-iasa2-rfc7776bis-03

Abstract

The IETF Anti-Harassment Procedures are described in RFC 7776.

The IETF Administrative Oversight Committee (IAOC) has been replaced by the IETF Administration LLC, and the IETF Administrative Director has been replaced by the IETF LLC Executive Director. This document updates RFC 7776 to amend these terms.

RFC 7776 contained updates to RFC 7437. draft-ietf-iasa2-rfc7437bis has incorporated those updates, so this document also updates RFC 7776 to remove those updates.

NOTE for RFC Editor and Readers of this Document

When published as an RFC

- All references to and mentions of draft-ietf-iasa2-rfc7437bis in this document should be replaced by the RFC that results from draft-ietf-iasa2-rfc7437bis.

- The string "XXXX" should be replaced with the RFC number assigned to the RFC that results from draft-ietf-iasa2-rfc7437bis.

- This note should be removed.

*** END OF NOTE ***

Status of This Memo

This Internet-Draft is submitted in full conformance with the provisions of BCP 78 and BCP 79.

Internet-Drafts are working documents of the Internet Engineering Task Force (IETF). Note that other groups may also distribute
working documents as Internet-Drafts. The list of current Internet-
Drafts is at https://datatracker.ietf.org/drafts/current/.

Internet-Drafts are draft documents valid for a maximum of six months
and may be updated, replaced, or obsoleted by other documents at any
time. It is inappropriate to use Internet-Drafts as reference
material or to cite them other than as "work in progress."

This Internet-Draft will expire on March 17, 2020.

1. Introduction

The IETF Anti-Harassment Procedures are described in RFC 7776
[RFC7776]. Those procedures include direction for the IETF Chair and
Ombudsteam to take advice from the IETF Administrative Oversight Committee (IAOC) with respect to the budget available for training.

The IAOC has been replaced by the IETF Administration LLC, and the IETF Administrative Director has been replaced by the IETF LLC Executive Director. This document updates RFC 7776 to amend these terms and to update a reference.

RFC 7776 contained updates to [RFC7437]. [I-D.ietf-iasa2-rfc7437bis] has incorporated those updates, so this document also updates RFC 7776 to remove those updates.

This document makes no other changes to the procedures described in RFC 7776.

2. Changes to RFC 7776

2.1. Changes to Section 3.4

Section 3.4 of RFC 7776 [RFC7776] is about Qualifications and Training. The last paragraph of that section is replaced as follows:

OLD

In determining the appropriate training, the IETF Chair and Ombudsteam shall take professional advice and will consult with the IETF Administrative Oversight Committee (IAOC) with respect to the overall IETF budget.

NEW

In determining the appropriate training, the IETF Chair and Ombudsteam shall take professional advice and will consult with the IETF Administration LLC with respect to the overall IETF budget.

END

2.2. Changes to Section 5

Section 5 of RFC 7776 [RFC7776] is about Remedies (available to the Ombudsteam). The last paragraph of that section is replaced as follows:

OLD

Where specific action is required to ensure that a remedy is realized or enforced, the Ombudsteam will make a request in
writing to the IETF Secretariat and/or IETF Administrative Director (IAD) to take action as appropriate.

NEW

Where specific action is required to ensure that a remedy is realized or enforced, the Ombudsteam will make a request in writing to the IETF Secretariat and/or IETF LLC Executive Director to take action as appropriate.

END

2.3. Changes to References to RFC 7437

RFC 7776 updated RFC 7437 [RFC7437] by allowing the Ombudsteam to form a recall petition. This document does not change any of the associated processes, however during the process of documenting the replacement of the IAOC by the IETF Administration LLC, RFC 7437 has been obsoleted by [I-D.ietf-iasa2-rfc7437bis], and as part of that work, [I-D.ietf-iasa2-rfc7437bis] has included the update from RFC 7776.

This document updates RFC 7776 to remove the update of RFC 7437.

2.3.1. Changes to Metadata

The following change is made to the metadata at the head of [RFC7776]:

OLD

Updates: 2418, 7437

NEW

Updates: 2418

END

2.3.2. Changes to the Abstract

The following change is made to text in the Abstract of [RFC7776]:

DELETE

This document updates RFC 7437 by allowing the Ombudsteam to form a recall petition without further signatories.
2.3.3. Changes to Section 5.1

The following change is made to text in Section 5.1 of [RFC7776]

OLD

- Many IETF management positions are appointed by the NomCom with
  confirmation from the IESG, IAB, or ISOC. [RFC7437] describes the
  recall procedure for such appointments. This document updates
  [RFC7437] by allowing the Ombudsteam to form a recall petition on
  its own and without requiring 20 signatories from the community.
  Such a petition shall be treated in all ways like any other recall
  petition as described in [RFC7437]: that is, the fact of the
  petition and its signatories (the Ombudsteam) shall be announced
  to the IETF community, and a Recall Committee Chair shall be
  appointed to complete the Recall Committee process. It is
  expected that the Recall Committee will receive a briefing from
  the Ombudsteam explaining why recall is considered an appropriate
  remedy.

NEW

- The Ombudsteam may form a recall petition on its own without
  requiring signatures from the community as described in
  [I-D.ietf-iasa2-rfc7437bis].

END

3. IANA Considerations

This document makes no request for IANA action.

4. Security Considerations

This document has no implications for Internet security.

5. References

5.1. Normative References
